### Volunteer Opportunities!

The South Bay Environmental Services Center (SBESC) offers volunteer opportunities for adults as well as college and high school students. Activities range from office support, inventory control, data entry, community outreach, and preparing materials for workshops and events regarding educating South Bay businesses, residents, and public agencies about energy efficiency and water conservation.

Anyone interested in volunteering as a way to learn about and promote innovative *green* programs are asked to contact Volunteer Coordinator Martha Segovia at (310) 371-7222 ext 209. Volunteer applications can be found at <http://www.sbesc.com/programs/volunteers>. A new volunteer training will be conducted on Wednesday, March 14, 2012 from 5:00-6:30 pm at the SBESC offices. The South Bay Environmental Services Center welcomes all participation and is happy to accommodate regular hours or flexible schedules.

We would love to hear from you!

For more information about local events, programs and workshops please go to: [www.sbesc.com](http://www.sbesc.com)

### **SBESC – Save Water, Energy, Money and the Environment**

*The SBESC is the South Bay's local clearinghouse for energy and water efficiency training, materials and other environmental information. SBESC works closely with the sixteen South Bay cities and County Unincorporated Areas of the South Bay on the implementation of energy and water saving projects that reduce greenhouse gases as well as costs. SBESC provides resources and tools to assist residents, businesses, and public agencies in better understanding the potential for energy and water efficiency within their homes and businesses. The Center hosts a wide variety of seminars, training sessions, and participates in many community events to assist consumers in making the best decision regarding energy and water use. The SBESC is operated by the South Bay Cities Council of Governments (SBCCOG) which partners with The Gas Company<sup>SM</sup>, Southern California Edison, West Basin Municipal Water District, City of Torrance Water Department, Sanitation Districts of Los Angeles County, Los Angeles County Metropolitan Transportation Authority, and County of Los Angeles for Energy Upgrade California<sup>TM</sup>. Visit <http://www.sbesc.com> for the latest activities, schedules and opportunities to participate in a greener South Bay.*
